

Angel Flight

is a nonprofit organization created by a group of pilots who will arrange free air transportation for any legitimate, charitable, medically related need. This service is available to individuals, and health care organizations. They will also arrange transportation for those people who are financially distressed, or who are in a time-critical, non-emergency situation due to their medical condition. For more information regarding eligibility requirements please visit angelflight.com or call (918) 749-8992. [Please click here](#) to locate air transportation assistance programs in your state.

Miracle Flight

is a nonprofit organization that provides low/middle income individuals and families free flights to distant, specialized medical care and valuable second opinions. To request their services, you can download their application form [HERE](#).

Corporate Angel Network

is the only charitable organization in the United States whose sole mission is to help cancer patients access the best possible treatment for their specific type of cancer by arranging free travel to treatment across the country using empty seats on corporate jets. This not only improves the patients' chances of survival but at the same time, it reduces their emotional stress, physical discomfort and financial burden. For more information regarding eligibility requirements please visit www.corpangelnetwork.org or call (914) 328-1313.

National Patient Travel Center

is a nonprofit profit organization that provides information about all forms of charitable, long-distance medical transportation and provides referrals to all appropriate sources of help available in the national charitable medical transportation network. Visit their website at patienttravel.org or call (800) 296-1217 for more information.

Air Charity Network

provides free airline travel for patients with both medical and financial needs. Visit their website at aircharitynetwork.org or call (877) 621-7177 for more information.

Angel Airlines for Cancer Patients

ensures that no cancer patient is denied access to distant specialized medical evaluation, diagnosis or treatment for lack of a means of long-distance commercial airline transportation. Patients needing help should visit patienttravel.org for information assistance.

PALS (Patient AirLift Services)

arranges free air transportation for individuals requiring medical diagnosis, treatment or follow-up. To apply visit their website at palservices.org/
